Bible: Today we talked about why we might love people more when we help them. The text said it is because when we help someone it is like investing in them. We tried to calculate how much Yuto's parents have spent on him coming to Axis since he was about 4 years old. His lifetime food expense. We talked about the time parents could be doing other things instead of taking care of you; which they did very willingly. Do we really appreciate our parents? After today, hopefully you understand the meaning of the chapter title better. The homework: Tell me what you will do for your parents tonight or tomorrow to start to really show them that you appreciate the many things that they have done for you, and continue to do for you.

Hint: " God has given us two hands, one to receive with and the other to give with." Billy Graham - American Evangelist. Based on what we read and talked about today, do you want to be a rich or a poor person? Remember rich and poor are adjectives that do not only describe money.
